SPOTLIGHT ON SPECIALS—SERVICE LEARNING

St. Mary's school recognizes that the elementary years are an important time to lay the foundation for learning civic participation skills. We know that habits of the mind and heart are set in the early years when students can learn that helping others is fun and can make a difference. The American Red Cross has recognized St. Mary's as a true service learning school. We have achieved this recognition through our service-learning curriculum; student planning, reflection and work in our community.

This year our school has established a cross-cultural partnership with pre-school students

at Shidler's Community Center.

Your student and family will have many opportunities throughout the year to volunteer or contribute to one of the many projects that St. Mary's students plan. Chose one or two that are dear to your heart. I am committed to continue my work with your student by connecting classroom and community through service. Do not hesitate to contact me if you ever have a question or suggestion.

Sincerely,
Cathy Pugsley
